Fashion Forum

What To Know:

Most of our Knit & Woven Alpaca Fashions are made in Peru where herds of Alpaca Animals live in the Andean Mountains. Many of our fashions are made by hand with a lot of Artisan Care.

When ordering our fashions we list most common colors and sizes. However, we also have available a larger variety in both colors and sizes. If you have an interest in additional colors or sizes beyond what we have listed please contact us.

"ALSO", we may not always have your first choices of colors, sizes or styles in stock. At times we have to produce more inventory. When production is needed it can at times be fast and at other times take several weeks depending on production. Please feel free to contact us at any time to check on our in stock items or a possible time frame on production of items. Colors can vary according to yarns available. Colors can look different when viewed through the internet. Sizes can vary according to knits, most approximate standard Ladies sizes we get orders for is size Large and XL.

*** Star items are Special Order Items and rare to be in stock, these items take extra time for production.**

Some common Color Charts for our fashions are shown Pg 26-27. This is our most common used yarn colors.
